## Workshop Program

### **1 How to Create Your Own Future** ~ Bryan Lockhart

Introduction of a powerful formula to help you create a vision of your own future. Develop a strong vision that is customized for you.

- Gain CLARITY in four of the key areas of your business and personal life;
- Tap into your CORE VALUES and PURPOSE;
- Identify the CONSTRAINTS impeding your success.

### **2 Taking Stock: A Self Evaluation** ~ Tasha Moodley

Together we will discover the challenges that you are facing and introduce you to powerful tools and ideas to help overcome them. This workshop is designed to help you understand how you affect your business – your presence, your thoughts and ultimately your decisions. YOU are your business. A topical issue in current business literature is that a significant proportion of challenges arising in an organization stems from a lack of emotional intelligence and self awareness. We will partner with you to investigate what may be hindering your progress and holding you back.

### **3 Understanding the Power of Goals!** ~ Bryan Lockhart

The ability to set clear goals is the master skill of success. Goals unlock your positive mind and release ideas and energy for goal attainment. Without goals, you simply drift on the currents of life. With goals, you fly like an arrow, straight and true to your target! "How can you hit a target you do not have?" Zig Ziglar. At the completion of this life-changing exercise you will be able to:

- Develop a PLAN to eliminate your constraints;
- Set S.M.A.R.T goals to achieve in 2012 and beyond using the 10 Goal Method.

### **4 Powerful, Results Oriented Action Plans** ~ Bill Quinn

The action plan portion ties together your day's information with templates to create a blueprint for implementation the next day. Key elements include:

- your action plan;
- a focused communication plan;
- identifying your monitoring process for success;
- key next steps for implementation.

# 2012 Business Mastery Workshop

By attending you will walk away with these and more:

- Energy, vision and focus for the next 90 days;
- A ready-to-implement 90-day action plan;
- A clear understanding of what has worked and what hasn't in order to make necessary adjustments to achieve performance excellence;
- An increased awareness of your limiting beliefs and ineffective habits;
- Strategies you can use immediately to stay focused and accountable for achieving the results you want;
- A new network of business contacts.
